

# **“HORIZON 2100 - International Youth Online Contest”**

**Actual until May 31, 2020**

**The non-governmental Center for Modeling Future announces the International youth online contest of scientific, practical-science and science-fiction works "HORIZON 2100".**

Young people, school children and students aged 16 to 26 years who are engaged in scientific research, scientific and practical (applied) activities and/or science fiction literary creativity in the subject area of the Competition are invited to participate.

In 2020, the Horizon-2100 International youth project joined the [UN Global Discussion](#) on the future of the world and the role of comprehensive cooperation in building the future. In this connection

## **The competition is held with three nominations**

- For the best scientific, research, scientific-practical work or engineering start-up, aimed at overcoming the threats facing the world and / or building a sustainable future for humanity for the period up to 2045 (UN centenary year);
- For the best scientific article, research, scientific-practical work, reflecting the scientific vision of the future of the planet and humanity at the turn of 2100 and the prospects for the development of its various scenarios;
- For the best creative work - a science fiction story describing imaginary innovative and original ideas, fantastic events, phenomena, processes and future prospects at the turn of the year 2100, giving them a scientific explanation.

## **Competition Dates:**

- deadline for scientific and creative works is 31 May, 2020
- examination of works - 1-25 June, 2020.
- summing up the results of the Competition and determining the works-finalists - from 26-30 July, 2020.

## **Final events of the Competition**

1. The winners of the competition will be invited to the International Youth Forum “Shaping the Future Together”, where the Awards will be presented. Dates - July – August, 2020. The exact dates will be announced after the situation in the world is stabilized in terms of the COVID-19 pandemic.
2. The Grand Prix winner of the HORIZON 2100 Competition will be invited to New York during the events of the 75th UN General Assembly from September 19 to 23, 2020.
3. The works of the finalists will be published on the website of the Center for Modeling Future in the Handbook of Scientific Works and the Literary Almanac of science fiction works until October 30, 2020.
