

Level-Up Learning

Date: 31/10/2022-06/11/2022

Venue: Georgia, Kobuleti

Description: The main reason we started this project "Level-Up Learning" is because we recognize the importance and positive impact of gamification and game-based learning. Game-based learning has the potential to make learning concepts more enjoyable for everyone involved. By incorporating elements of play and interactivity, participants can engage with the material in a way that feels more creative way than traditional studying. This approach can not only increase motivation and interest in the subject matter but also enhance overview and understanding of key concepts.

Working language: English

Participation fee: 150 Euro
