Ameria CJSC is looking for self-motivated, highly analytical and well-organized **Research Consultant** to work in company's Management Advisory Services (MAS) team. Research Consultant will work as a part of the team to design, implement and analyze the results of researches for corporate clients and public advisory projects covering macroeconomic, different sectors of economy as well as demographic and social fields.

Responsibilities:

- Draft research design and action plan for specific projects
- Collect secondary data, conduct desk reviews and do analysis
- Maintain and update socio-economic time series databases
- Liaise with outsourced partner research companies on research projects
- Design tools for qualitative or quantitative surveys and analyze collected primary data
- Prepare internal and external reports on conducted researches
- Participate in the presentation of the research results to beneficiaries
- Engage as an expert in other projects, where qualified

Required skills and experience:

- Prior experience of designing and conducting researches
- Good analytical skills and ability to work with numbers
- Accuracy and attention to detail
- Excellent interpersonal and communication skills
- Strong presentation skills
- Strong ability to cope with pressure and challenges
- Ability to work as part of a multidisciplinary team
- University degree in Economics, Statistics, Mathematics or other relevant field
- Fluency in spoken and written English is mandatory; good knowledge of Russian is a strong asset

All interested and qualified candidates are invited to complete the application form, enclose the CV at their discretion and email it to hr@ameriagroup.am.

Please indicate the position title in the subject field of your message.

Only short-listed candidates will be invited for the interview.
