

To whom it may concern:

Université de Genève (UNIGE) is looking for outstanding researchers wishing to apply to the Marie Skłodowska-Curie Individual Fellowships (MSCA-IF) programme with UNIGE as Host Institution, under the [call for applications MSCA-IF-2019](#) closing on 11 September 2019.

MSCA-IF offer the opportunity for experienced researchers (PhD holders or those with four years' full-time equivalent research experience) to secure their own funding within the framework of an individual project, which can last 12 to 36 months depending on the type of fellowship. This programme is open to all domains of research and innovation.

Please note: Mobility is a key requirement when it comes to MSCA. Interested researchers should pay special attention to the eligibility criteria, including the Mobility Rule (see the 'Guide for applicants' attached).

Candidates wishing to apply with UNIGE as Host Institution should find a scientific supervisor (a Professor or Senior lecturer - MER) in their field of expertise before reaching out to us. They will be supported by the Research Services (Euresearch) throughout the preparation of their proposal, with substantial information and guidance.

Furthermore, they will have the possibility to participate in the 'MSCA-IF Applicants Training' taking place at UNIGE on 4 July 2019. This event is a one-day training (held in English) for researchers planning to apply to the next MSCA-IF call with deadline on 11 September 2019. Participants will work with an example proposal, get insight into the evaluation process and have the possibility to learn from a successful applicant. The event is free of charge (travel costs not included). More information about this training and registration [here](#).
